## **Problemy Eksplotacji – Maintenance Problems**

### **Scientific quarterly of the Institute for Sustainable Technologies – National Research Institute (ITEE – PIB)**

Information about articles printed in the Journal can be fund in the following three renowned databases:

- Index Copernicus – the international specialized platform promoting scientific achievements, and supporting national and international collaboration between scientists, publishers of scientific journals and R&D units;
- BazTech – bibliographic and abstract database about Polish technical journals, in which articles from selected Polish journals in the field of technical sciences and environmental protection are stored;
- TEMA (Technology and Management) WTI-Frankfurt eG, Frankfurt am Main.

Articles are reviewed by reviewers constantly cooperating with the Journal. The list of them is presented on the website of the Journal:

|------------------------|--------------------------------------------------------------------------------------------|
| Prof. Tomasz Giesko    | – mechatronic and optomechatronic systems, oprtomechatronic measurement methods;           |
| Joanna Łabędzka, PhD   | – knowledge transformation systems, IT platforms, technology transfer, foresight;          |
| Andrzej Majcher, PhD   | – control systems, metrology;                                                              |
| Marian Grądkowski, PhD | – biotechnologies, ecology, operational fluids management;                                 |
| Beata Poteralska, PhD  | – innovations, technology transfer, foresight;                                             |
| Prof. Jerzy Smolić     | – surface engineering, hybrid technologies, materials test methods;                        |
| Andrzej Zbrowski, PhD  | – basis for the design and construction of machines, operational and standardization tests |
