PROBLEMY EKSPLOATACJI

no 4/2017

**Journal of Machine Construction and Maintenance – Problem Eksplotacji
Scientific quarterly of the Institute for Sustainable Technologies
– National Research Institute (ITeE – PIB)**

Information about articles printed in the Journal can be found in the following three renowned databases:

- Index Copernicus – the international specialized platform promoting scientific achievements, and supporting national and international collaboration between scientists, publishers of scientific journals and R&D units;
- BazTech – bibliographic and abstract database about Polish technical journals, in which articles from selected Polish journals in the field of technical sciences and environmental protection are stored;
- TEMA (Technology and Management) WTI-Frankfurt eG, Frankfurt am Main.

Articles are reviewed by reviewers constantly cooperating with the Journal. Their names are listed on the website of the Journal: www.problemyeksplotacji.itee.radom.pl
